QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 001-12593

Atlantic Tele-Network, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

47-0728886
(I.R.S. Employer
Identification Number)

**600 Cummings Center
Beverly, MA 01915**
(Address of principal executive offices, including zip code)

(978) 619-1300
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes No

As of August 9, 2011, the registrant had outstanding 15,400,355 shares of its common stock (\$.01 par value).

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q (or the “Report”) contains forward-looking statements relating to, among other matters, our future financial performance and results of operations; the competitive environment in our key markets, demand for our services and industry trends; the outcome of litigation and regulatory matters; our continued access to the credit and capital markets; the pace of our network expansion and improvement, including our level of estimated future capital expenditures and our realization of the benefits of these investments; and management’s plans and strategy for the future. These forward-looking statements are based on estimates, projections, beliefs, and assumptions and are not guarantees of future events or results. Actual future events and results could differ materially from the events and results indicated in these statements as a result of many factors, including, among others, (1) the general performance of our U.S. operations, including operating margins, and the future retention and turnover of our subscriber base; (2) our ability to maintain favorable roaming arrangements; (3) increased competition; (4) economic, political and other risks facing our foreign operations; (5) the loss of certain FCC and other licenses and other regulatory changes affecting our businesses; (6) rapid and significant technological changes in the telecommunications industry; (7) any loss of any key members of management; (8) our reliance on a limited number of key suppliers and vendors for timely supply of equipment and services relating to our network infrastructure and retail wireless business; (9) the adequacy and expansion capabilities of our network capacity and customer service system to support our customer growth; (10) the occurrence of severe weather and natural catastrophes; (11) the current difficult global economic environment, along with difficult and volatile conditions in the capital and credit markets; (12) our continued access to capital and credit markets and (13) our ability to realize the value that we believe exists in businesses that we may or have acquired. These and other additional factors that may cause actual future events and results to differ materially from the events and results indicated in the forward-looking statements above are set forth more fully under Item 1A “Risk Factors” of this Report as well as the Company’s Annual Report on Form 10-K for the year ended December 31, 2010, filed with the SEC on March 16, 2011. The Company undertakes no obligation to update these forward-looking statements to reflect actual results, changes in assumptions or changes in other factors that may affect such forward-looking statements.

In this Report, the words “the Company”, “we,” “our,” “ours,” “us” and “ATN” refer to Atlantic Tele-Network, Inc. and its subsidiaries, unless the context indicates otherwise. This Report contains trademarks, service marks and trade names such as “Alltel”, “CellOne”, “Cellink”, “Islandcom”, “Choice”, “Sovernet” and “ION” that are the property of, or licensed by, ATN, and its subsidiaries.

Reference to dollars (\$) refer to U.S. dollars unless otherwise specifically indicated.

ATLANTIC TELE-NETWORK, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND BUSINESS OPERATIONS

The Company provides wireless and wireline telecommunications services in North America, Bermuda and the Caribbean. Through its operating subsidiaries, the Company offers the following principal services:

- **Wireless.** In the United States, the Company offers wireless voice and data services to retail customers under the “Alltel” name in rural markets located principally in the Southeast and Midwest. Additionally, the Company offers wholesale wireless voice and data roaming services to national, regional and local wireless carriers and selected international wireless carriers in rural markets located principally in the Southwest and Midwest United States. The Company also offers wireless voice and data services to retail customers in Bermuda under the “CellOne” name, in Guyana under the “Cellink” name, and in other smaller markets in the Caribbean and the United States.
- **Wireline.** The Company’s local telephone and data services include its operations in Guyana and the mainland United States. The Company is the exclusive provider of domestic wireline local and long distance telephone services in Guyana and international voice and data communications into and out of Guyana. The Company also offers facilities-based integrated voice and data communications services to enterprise and residential customers in New England, primarily in Vermont, and wholesale transport services in New York State.

In the second quarter of 2010, the Company completed the acquisition of its U.S. retail wireless business, which provides wireless voice and data services in rural markets of the United States under the “Alltel” brand name (the “Alltel Acquisition”). Since 2005, revenue from U.S. operations has significantly grown as a percentage of consolidated revenue and as a result of the Alltel Acquisition, a substantial majority of the Company’s consolidated revenue is now generated in the United States, mainly through mobile wireless operations. For more information about the Alltel Acquisition, see Note 4 to the Consolidated Financial Statements included in this Report.

In the second quarter of 2011, the Company continued its expansion and completed the merger of its Bermuda operations with M3 Wireless, Ltd., a leading retail wireless provider in Bermuda and entered into a joint venture with the Navajo Tribal Utility Authority (“NTUA”) to provide retail wireless services on the Navajo Nation. For more information on the Bermuda merger and the NTUA joint venture, see Note 4 to the Consolidated Financial Statements included in this Report. The Company actively evaluates additional investment and acquisition opportunities in the United States and the Caribbean that meet our return-on-investment and other acquisition criteria.

The following chart summarizes the operating activities of the Company’s principal subsidiaries, the segments in which the Company reports its revenue and the markets it served as of June 30, 2011:

Services	Segment	Markets	Tradenames
Wireless	U.S. Wireless	United States (rural markets)	Alltel, Choice
	Island Wireless	Aruba, Bermuda, Turks and Caicos, U.S. Virgin Islands	Mio, CellOne, Islandcom, Choice
	International Integrated Telephony	Guyana	Cellink
Wireline	International Integrated Telephony	Guyana	GT&T, Emagine
	U.S. Wireline	United States (New England and New York State)	Sovernet, ION

The Company provides management, technical, financial, regulatory, and marketing services to its subsidiaries and typically receives a management fee equal to a percentage of their respective revenue. Management fees from consolidated subsidiaries are eliminated in consolidation. For information about the Company’s business segments and geographical information about its revenue, operating income and long-lived assets, see Note 10 to the Consolidated Financial Statements included in this Report.

2. BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The financial information included herein is unaudited; however, the Company believes such information and the disclosures herein are adequate to make the information presented not misleading and reflect all adjustments (consisting only of normal recurring adjustments) that are necessary for a fair statement of the Company’s financial position and results of operations for such periods. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United

[Table of Contents](#)

States of America. Results of interim periods may not be indicative of results for the full year. These condensed consolidated financial statements and related notes should be read in conjunction with the Company’s 2010 Annual Report on Form 10-K.

Consolidation

The consolidated financial statements include the accounts of the Company, its majority-owned subsidiaries and certain entities, which are consolidated in accordance with the provisions of the Financial Accounting Standards Board (“FASB”) authoritative guidance on the consolidation of variable interest entities since it is determined that the Company is the primary beneficiary of these entities.

Recent Accounting Pronouncements

In January 2010, the FASB issued updated guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. This update requires new disclosures on significant transfers of assets and liabilities in and out of Level 1 and Level 2 of the fair value hierarchy (including the reasons for these transfers) and also requires a reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements on a gross basis. In addition to these new disclosure requirements, this update clarifies certain existing disclosure requirements. For example, this update clarifies that reporting entities are required to provide fair value measurement disclosures for each class of assets and liabilities rather than each major category of assets and liabilities. This update also clarifies the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. This update was effective for companies with interim and annual reporting periods beginning after December 15, 2009, except for the requirement to provide the Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which became effective for interim and annual reporting periods beginning after December 15, 2010. The Company has adopted the updated guidance in the first quarter of 2010 and the adoption did not have an impact on our financial position, results of operations, or cash flows.

In June 2009, the FASB issued new authoritative guidance that amends certain guidance for determining whether an entity is a variable interest entity (VIE). The guidance requires an enterprise to perform an analysis to determine whether the Company’s variable interests give it a controlling financial interest in a VIE. A company would be required to assess whether it has an implicit financial responsibility to ensure that a VIE operates as designed when determining whether it has the power to direct the activities of the VIE that most significantly impact the entity’s economic performance. In addition, this guidance amends earlier guidance requiring ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE. The adoption of the provisions of this guidance, which was effective January 1, 2010, did not have a material impact on the consolidated financial statements.

Other new pronouncements issued but not effective until after June 30, 2011 are not expected to have a material impact on the Company’s financial position, results of operations or liquidity.

3. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. The most significant estimates relate to the allowance for doubtful accounts, useful lives of the Company’s fixed and finite-lived intangible assets, allocation of purchase price to assets acquired and liabilities assumed in purchase business combinations, fair value of indefinite-lived intangible assets, goodwill and income taxes. Actual results could differ significantly from those estimates.

4. ACQUISITIONS

Alltel Wireless

On April 26, 2010, the Company completed its previously-announced acquisition of wireless assets from Cellco Partnership d/b/a Verizon Wireless (“Verizon”) pursuant to the Purchase Agreement, dated June 9, 2009, between the Company and Verizon (the “Alltel Acquisition”). Pursuant to the Purchase Agreement, Verizon contributed certain licenses, network assets, tower and other leases and other assets and certain related liabilities to its wholly-owned subsidiary limited liability company, whose membership interests were acquired by Allied Wireless Communications Corporation (“AWCC”), the Company’s subsidiary.

[Table of Contents](#)

The Company funded the purchase price of \$221.4 million, which included the purchase of \$15.8 million of net working capital, as defined in the agreement, with cash-on-hand and borrowings under its available credit facility. On April 26, 2010, the Company drew down a \$150 million term loan under the Amended and Restated Credit Agreement, dated as of January 20, 2010, by and among the Company, certain of the Company’s subsidiaries, as Guarantors, CoBank, ACB, as Administrative Agent, Arranger, Issuer Lender and Lender, and the other Lenders named therein. In addition, the Company also borrowed \$40 million under its previously undrawn revolving credit facility. The remaining \$31.4 million of consideration was funded using cash on hand.

The Alltel Acquisition was accounted for using the purchase method and AWCC's results of operations since April 26, 2010 have been included in the Company's U.S. Wireless segment as reported in Note 10. The total purchase consideration of \$221.4 million cash was allocated to the assets acquired and liabilities assumed at their estimated fair values as of the date of acquisition as determined by management. The table below represents the assignment of the total acquisition cost to the tangible and intangible assets and liabilities of AWCC based on their acquisition date fair values:

Total cash consideration	\$	221,359
Purchase price allocation:		
Net working capital	\$	15,817
Property, plant and equipment		176,393
Customer relationships		55,500
Telecommunications licenses		44,000
Trade name license		13,400
Other long term assets		11,500
Other long term liabilities		(34,211)
Deferred tax liabilities		(18,016)
Non-controlling interests		(16,000)
Net assets acquired	\$	248,383
Gain on bargain purchase, net of deferred taxes of \$18,016	\$	27,024

The gain related to the Alltel Acquisition was a result of a bargain purchase generated by the forced divestiture of the assets that was required to be completed by Verizon within a required timeframe to a limited class of potential buyers that resulted in a favorable price to the Company for these assets. This gain, recognized on the bargain purchase, was included in Other Income in the Company's results during the second quarter of 2010. The weighted average amortization period of the amortizable intangible assets (customer relationships and trade name license) is 12.7 years.

In connection with the Alltel Acquisition, the Company incurred \$15.8 million of external acquisition-related costs during the six months ended June 30, 2010 relating to legal, accounting and consulting services. The Company completed the transition of its Alltel customers to its own information technology and customer service platforms in July 2011.

Merger with M3 Wireless, Ltd.

On May 2, 2011, the Company completed the merger of its Bermuda wireless operations, Bermuda Digital Communications, Ltd. ("BDC"), with that of M3 Wireless, Ltd. ("M3"), a wireless provider in Bermuda (the "CellOne Merger"). As part of the CellOne Merger, M3 merged with and into BDC, and the combined entity will continue to operate under BDC's CellOne brand under the leadership of BDC's existing management team. As a result of the CellOne Merger, the Company's 58% ownership interest in BDC was reduced to a controlling 42% interest in the combined entity. Since the Company owns the majority of seats on the combined entity's board of directors and therefore controls its management and policies, the Company has consolidated the results of the combined entity in its consolidated financial statements effective on the date of the CellOne Merger.

The CellOne Merger was accounted for using the purchase method and M3's results of operations since May 2, 2011 have been included in the Company's Island Wireless segment as reported in Note 10. The total consideration of the CellOne Merger was allocated to the assets acquired and liabilities assumed at their estimated fair values as of the date of the CellOne Merger as determined by management. The consideration paid for M3 was determined based on the estimated fair value of the equity of M3. The table below represents the assignment of the total consideration to the tangible and intangible assets and liabilities of M3 based on their merger date fair values (in thousands):

[Table of Contents](#)

Total consideration	\$	6,655
Purchase price allocation:		
Net working capital	\$	675
Property, plant and equipment		10,577
Customer relationships		2,600
Telecommunications licenses		6,100
Goodwill		3,105
Note payable- affiliate (see Note 6)		(7,012)
Other long term liabilities		(200)
Non-controlling interests		(9,190)
Net assets acquired	\$	6,655

The amortization period of the customer relationships is 12.0 years. Revenues and net income for M3 since the completion of the merger were immaterial to the Company's consolidated financial statements. The value of the goodwill from the CellOne Merger can be attributed to a number of business factors including, but not limited to, the reputation of M3 as a retail provider of wireless services and a network operator, M3's reputation for customer care and the strategic position M3 holds in Bermuda.

The following table reflects the unaudited pro forma results of operations of the Company for the three and six months ended June 30, 2010 and 2011 as if the Alltel Acquisition and the CellOne Merger had occurred on January 1, 2010 (presented in thousands, except per share data):

	Three Months Ended June 30, 2010		Six Months ended June 30, 2010	
	As Reported	As Adjusted	As Reported	As Adjusted
Revenue	\$ 164,689	\$ 224,859	\$ 219,520	\$ 483,413
Net income	24,804	29,454	28,809	45,739
Earnings per share:				
Basic	\$ 1.62	\$ 1.93	\$ 1.89	\$ 2.99
Diluted	1.60	1.90	1.86	2.96

	Three Months Ended June 30, 2011		Six Months ended June 30, 2011	
	As Reported	As Adjusted	As Reported	As Adjusted
Revenue	\$ 193,753	\$ 195,247	\$ 381,908	\$ 387,996
Net income	1,815	1,788	6,312	6,847
Earnings per share:				
Basic	\$ 0.12	\$ 0.12	\$ 0.41	\$ 0.44
Diluted	0.12	0.12	0.41	0.44

The unaudited pro forma data is presented for illustrative purposes only and is not necessarily indicative of the operating results that would have occurred if the Alltel Acquisition and the CellOne Merger had been consummated on this date or of future operating results of the combined company following this transaction.

Joint Venture with Navajo Tribal Utility Authority

In April 2011, the Company entered into a joint venture with the Navajo Tribal Utility Authority (“NTUA”) to provide retail wireless service to residents of the Navajo Nation, which spans across parts of Arizona, New Mexico and Utah. Commnet Wireless, LLC, through its wholly-owned subsidiary, contributed network-related equipment and other assets in exchange for a 49% controlling interest in the joint venture. Since the Company controls the combined entity’s board of directors and therefore controls its management and policies, the joint venture will have its results of operations consolidated in the Company’s financial statements. The joint venture is also being partially funded by a \$32.1 million broadband grant to NTUA from the National Telecommunications & Information Association as part of the American Reinvestment and Recovery Act.

Caribbean Telecom Partners, LLC

In June 2010, the Company entered into a joint venture to purchase a controlling interest in a wireless telecommunications enterprise in bankruptcy proceedings and operating on the island of Aruba. The joint venture is conducted through a newly-created

[Table of Contents](#)

company named Caribbean Telecom Partners, LLC (“CTP”), in which the Company invested \$3.1 million in exchange for a 51% controlling interest.

5. FAIR VALUE MEASUREMENTS

In accordance with the provisions of fair value accounting, a fair value measurement assumes that a transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability and defines fair value based upon an exit price model.

The fair value measurement guidance establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The guidance describes three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset and liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 assets and liabilities include money market funds, debt and equity securities and derivative contracts that are traded in an active exchange market.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes corporate obligations and non-exchange traded derivative contracts.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Assets and liabilities of the Company measured at fair value on a recurring basis as of December 31, 2010 and June 30, 2011 are summarized as follows:

Description	December 31, 2010		Total
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	
Certificates of deposit	\$ 3,360	\$ —	\$ 3,360
Money market funds	5,962	—	5,962
Total assets measured at fair value	\$ 9,322	\$ —	\$ 9,322
Interest rate derivative (Note 7)	\$ —	\$ 7,687	\$ 7,687
Total liabilities measured at fair value	\$ —	\$ 7,687	\$ 7,687

Description	June 30, 2011		Total
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	
Certificates of deposit	\$ 3,360	\$ —	\$ 3,360
Money market funds	5,477	—	5,477
Total assets measured at fair value	\$ 8,837	\$ —	\$ 8,837
Interest rate derivative (Note 7)	\$ —	\$ 8,658	\$ 8,658
Total liabilities measured at fair value	\$ —	\$ 8,658	\$ 8,658

As of December 31, 2010 and June 30, 2011, this asset class consisted of time deposits at financial institutions denominated in U.S. dollars and a money market portfolio that comprises Federal government and U.S. Treasury securities. The asset class is classified within Level 1 of the fair value hierarchy because its underlying investments are valued using quoted market prices in active markets for identical assets.

[Table of Contents](#)
Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. When deemed appropriate, the Company manages economic risks related to interest rates primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company entered into derivative financial instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of its known or expected cash payments principally related to the Company's borrowings.

6. LONG-TERM DEBT

Long-term debt comprises the following (in thousands):

	December 31, 2010	June 30, 2011
Notes payable- Bank:		
Term loans	\$ 264,306	\$ 258,209
Revolver loan	24,000	47,094
Note payable- Affiliate	—	6,592
Total outstanding debt	288,306	311,895
Less: current portion	(12,194)	(17,791)
Total long-term debt	276,112	294,104
Less: debt discount	(4,063)	(4,413)
Net carrying amount	<u>\$ 272,049</u>	<u>\$ 289,691</u>

Loan Facilities- Bank

On January 20, 2010, the Company amended and restated its then existing credit facility with CoBank (the "2010 Credit Facility"). The 2010 Credit Facility provided for \$223.9 million in term loans and a \$75.0 million revolver loan.

On September 30, 2010, the Company further amended the 2010 Credit Facility by adding a \$50.0 million term loan and expanding the revolver loan to \$100.0 million (which includes a \$10 million swingline sub-facility). This amended facility (the "Amended 2010 Credit Facility") also provides for additional term loans up to an aggregate \$50.0 million, subject to lender approval. As of June 30, 2011, \$258.2 million was outstanding under the term loans and \$47.1 million was outstanding under the revolver loan.

The term loans mature on September 30, 2014 and require certain quarterly repayment obligations. The revolver loan matures on September 10, 2014.

Amounts borrowed under the Amended 2010 Credit Facility bear interest at a rate equal to, at the Company's option, either (i) the London Interbank Offered Rate (LIBOR) plus an applicable margin ranging between 3.50% to 4.75% or (ii) a base rate plus an applicable margin ranging from 2.50% to 3.75% (or, in the case of amounts borrowed under the swingline sub-facility, an applicable margin ranging from 2.00% to 3.25%). The applicable margin is determined based on the ratio of the Company's indebtedness to its EBITDA (each as defined in the Amended 2010 Credit Facility agreement). Borrowings as of June 30, 2011, after considering the effect of the interest rate swap agreements as described in Note 7, bore a weighted-average interest rate of 5.86%.

The Company may prepay the Amended 2010 Credit Facility at any time without premium or penalty, other than customary fees for the breakage of LIBOR loans. Under the terms of the Amended 2010 Credit Facility, the Company must also pay a commitment fee ranging from 0.50% to 0.75% of the average daily unused portion of the revolver loan over each calendar quarter.

The Amended 2010 Credit Facility contains customary representations, warranties and covenants, including covenants by the Company limiting additional indebtedness, liens, guaranties, mergers and consolidations, substantial asset sales, investments and loans, sale and leasebacks, transactions with affiliates and fundamental changes. In addition, the Amended 2010 Credit Facility contains financial covenants by the Company that (i) impose a maximum ratio of indebtedness to EBITDA, (ii) require a minimum ratio of EBITDA to cash interest expense, (iii) require a minimum ratio of equity to consolidated assets and (iv) require a minimum ratio of EBITDA to fixed charges. On June 30, 2011 the Company amended some of these financial covenants to allow an increased ratio of indebtedness to EBITDA and amended the definition of fixed charges. As of June 30, 2011, the Company was in compliance with all of the financial covenants of the Amended 2010 Credit Facility, as amended.

[Table of Contents](#)
Note Payable- Affiliate

In connection with the CellOne Merger with M3 Wireless, Ltd., the Company assumed a \$7.0 million term loan owed to Keytech Ltd., the former parent company of M3 and current 42% minority shareholder in the Company's Bermuda operations. The term loan requires quarterly repayments of principal, matures on March 15, 2015 and bears interest at a rate of 7% per annum.

7. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses an interest rate swap as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The effective portion of changes in the fair value of interest rate swaps designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The Company uses its derivatives to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivative is recognized directly in earnings. No hedge ineffectiveness was recognized during any of the periods presented.

As of June 30, 2010, the Company's sole derivative instrument was an interest rate swap with a notional amount of \$68 million that was designated as a cash flow hedge of interest rate risk. On July 26, 2010 and on December 31, 2010, the Company executed additional interest rate swaps with notional amounts of \$30 million and \$50 million, respectively, that were also designated as cash flow hedges of interest rate risk. During the quarter ending June 30, 2011 the \$30 million swap was reduced, as scheduled, to \$25 million bringing the total notional amount of cash flow hedges to \$143 million as of June 30, 2011.

Amounts reported in accumulated other comprehensive income related to the interest rate swaps are reclassified to interest expense as interest payments are accrued on the Company's variable-rate debt. Through June 30, 2012, the Company estimates that an additional \$4.0 million will be reclassified as an increase to interest expense due to the interest rate swaps since the hedge interest rate exceeds the variable interest rate on the debt.

The table below presents the fair value of the Company's derivative financial instrument as well as its classification on the consolidated balance sheet as of December 31, 2010 and June 30, 2011 (in thousands):

	Balance Sheet Location	Liability Derivatives	
		Fair Value as of	
		December 31, 2010	June 30, 2011
Derivatives designated as hedging instruments:			
Interest Rate Swaps	Other liabilities	\$ 7,687	\$ 8,658
Total derivatives designated as hedging instruments		\$ 7,687	\$ 8,658

The table below presents the effect of the Company's derivative financial instruments on the consolidated income statements for the three and six months ended June 30, 2010 and 2011 (in thousands):

Three Months Ended June 30,	Derivative in Cash Flow Hedging Relationships	Amount of Gain or (Loss) Recognized in Other Comprehensive Income on Derivative (Effective Portion)	Location of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Income into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Income into Income (Effective Portion)
2010	Interest Rate Swap	\$ (2,263)	Interest expense	\$ 709
2011	Interest Rate Swap	(2,488)	Interest expense	1,042

[Table of Contents](#)

Six Months Ended June 30,	Derivative in Cash Flow Hedging Relationships	Amount of Gain or (Loss) Recognized in Other Comprehensive Income on Derivative (Effective Portion)	Location of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Income into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Income into Income (Effective Portion)
2010	Interest Rate Swap	\$ (3,083)	Interest expense	\$ 1,422
2011	Interest Rate Swap	(4,012)	Interest expense	2,072

Credit-risk-related Contingent Features

The Company has agreements with its derivative counterparties that contain a provision where if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations.

As of June 30, 2011, the fair value of the interest rate swaps liability position related to these agreements was \$8.7 million. As of June 30, 2011, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions at June 30, 2011, it would have been required to settle its obligations under these agreements at their termination values of \$8.7 million.

8. RECONCILIATION OF TOTAL EQUITY

Total equity was as follows (in thousands):

Six Months Ended June 30,

	2010			2011		
	Atlantic Tele- Network, Inc.	Non-Controlling Interests	Total Equity	Atlantic Tele- Network, Inc.	Non-Controlling Interests	Total Equity
Equity, beginning of period	\$ 255,745	\$ 26,687	\$ 282,432	\$ 283,768	\$ 45,268	\$ 329,036

Comprehensive income:						
Net income	28,809	90	28,899	6,312	(1,015)	5,297
Other comprehensive income(loss)-						
Translation Adjustment	—	—	—	13	—	13
Gain (loss) on interest rate swap (net of tax)	(1,900)	—	(1,900)	(583)	—	(583)
Total comprehensive income	26,909	90	26,999	5,742	(1,015)	4,727
Issuance of common stock upon						
exercise of stock options	677	—	677	52	—	52
Dividends declared on common stock	(6,123)	—	(6,123)	(6,775)	(1,607)	(8,382)
Non-controlling interests of acquired						
business	—	16,000	16,000	—	—	—
Distributions to non-controlling						
interests	—	(860)	(860)	—	—	—
Investments made by minority						
shareholders	—	225	225	—	3,507	3,507
Change in equity ownership of						
consolidated subsidiaries	—	—	—	3,475	11,923	15,398
Purchase of common shares	—	—	—	(91)	—	(91)
Equity, end of period	\$ 278,189	\$ 42,142	\$ 320,331	\$ 288,061	\$ 58,076	\$ 346,137

9. NET INCOME PER SHARE

For the three and six months ended June 30, 2010 and 2011, outstanding stock options were the only potentially dilutive securities.

[Table of Contents](#)

The reconciliation from basic to diluted weighted average common shares outstanding is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2011	2010	2011
Basic weighted average common shares				
outstanding	15,300	15,394	15,280	15,389
Stock options	178	103	183	102
Diluted weighted-average common shares				
outstanding	15,478	15,497	15,463	15,491

The above calculations for the three months ended June 30, 2010 and 2011 do not include 114,000 and 293,000 shares, respectively, related to certain stock options because the effects of such were anti-dilutive. For the six months ended June 30, 2010 and 2011, the calculation does not include 87,000 and 245,000 shares, respectively, related to certain stock options because the effect on such options was anti-dilutive.

10. SEGMENT REPORTING

Upon the completion of the Alltel Acquisition, the Company restructured how it manages its business, and accordingly, modified its reportable segments. The previously reported Rural Wireless segment has been combined with the operating results of Alltel and is now being reported as the U.S. Wireless segment, which generates all of its revenue and has all of its assets located in the United States. In addition, the previously reported Wireless Data segment has been merged into the Island Wireless segment which generates its revenue, and has its assets, in Bermuda, Turks and Caicos, the U.S. Virgin Islands and Aruba. Integrated Telephony—International has been renamed International Integrated Telephony and has its assets located primarily in Guyana. Integrated Telephony—Domestic has been renamed U.S. Wireline, and has its assets located in the United States. The operating segments are managed separately because each offers different services and serves different markets. Reconciling items refer to corporate overhead matters including general and administrative expenses and acquisition-related charges.

The following tables provide information for each operating segment (in thousands). Previously reported periods have been revised, showing the effects of the new segment structure:

	For the Three Months Ended June 30, 2010					
	U.S. Wireless	International Integrated Telephony	Island Wireless	U.S. Wireline	Reconciling Items	Consolidated

11. COMMITMENTS AND CONTINGENCIES

Regulatory and Litigation Matters

The Company and its subsidiaries are subject to certain regulatory and legal proceedings and other claims arising in the ordinary course of business, some of which involve claims for damages and taxes that are substantial in amount. The Company believes that, except for the items discussed below and those discussed in our Annual Report on Form 10-K for the year ended December 31, 2010, for which the Company is currently unable to predict the final outcome, the disposition of proceedings currently pending will not have a material adverse effect on the Company's financial position or results of operations.

Regulatory

Currently, the Company holds an exclusive license, issued by the Government of Guyana, to provide domestic fixed services and international voice and data services in Guyana. The license, whose initial term of twenty years was scheduled to expire at the end of 2010, allowed for the Company, at its option, to extend the term for an additional twenty years, until December 2030. The Company exercised its extension right in November of 2009. In early October 2010, the Government of Guyana released to existing telecommunications providers in Guyana certain materials, including drafts of legislation, regulations, and licenses ("Draft Laws"), that, if enacted, would permit other telecommunications carriers to receive licenses to provide domestic fixed services and international voice and data services in Guyana, in contravention of the Company's existing exclusive license. In exercising the Company's option to renew its licenses in 2009 and again in its comments to the Draft Laws submitted to the Government of Guyana in November 2010, the Company reiterated to the Government that it would be willing to voluntarily relinquish the exclusivity aspect of its licenses as part of an overall settlement of outstanding legal and regulatory issues between the Company and the Government. On August 4, 2011 the Government of Guyana introduced legislation in the Guyanese Parliament that, among other things, would have the effect of terminating the Company's exclusive license. The Company cannot predict when or if the proposed legislation will be adopted by the Guyanese Parliament or subsequently implemented by the Minister of Telecommunications, however, the Government has indicated to the Company its expectation that the Draft Laws will be adopted during the third quarter of 2011. Although the Company believes that it would be entitled to damages or other compensation for any involuntary termination of the exclusive license, it cannot guarantee that the Company would prevail in a proceeding to enforce its rights or that its actions would effectively halt any unilateral action by the Government.

Litigation

Since October 2010, we have been negotiating the renewal of our contract with the Guyana Postal and Telecommunications Workers Union (the "Guyana Union"), which represents more than half of our Guyana full-time work force. Although the contract expired in October 2010, we have continued to operate under the expired contract's terms and conditions. In April 2011, the Guyana Union notified the Company, via a letter to our Chairman, of its request to the Guyana Ministry of Labour for arbitration of the terms of the new contract. In response, the Guyana Ministry of Labour has notified the parties that arbitration is premature, and has encouraged the parties to continue to follow collective bargaining procedures. At this time, the Company intends to continue good faith negotiations with the Guyana Union in hopes of reaching a mutual agreement and does not expect the results of such negotiations to have a material impact on its financial statements.

Historically, the Company has been subject to litigation proceedings and other disputes in Guyana that while not conclusively resolved, to its knowledge have not been the subject of discussions or other significant activity in the last five years. It is possible, but not likely, that these disputes may be revived. The Company believes that none of these additional proceedings would, in the event of an adverse outcome, have a material impact on its consolidated financial position, results of operation or liquidity. For all of the regulatory, litigation, or related matters listed in our Form 10-K for the year ended December 31, 2010, the Company believes some adverse outcome is probable and has accordingly accrued \$5.0 million as of June 30, 2011.

12. SUBSEQUENT EVENTS

See Note 11, "Regulatory" for a discussion of the status of the Government of Guyana's draft legislation with respect to the Company's telecommunications licenses in Guyana.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion and analysis of our financial condition and results of operations that follows are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of our financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities at the date of

[Table of Contents](#)

our financial statements. Actual results may differ significantly from these estimates under different assumptions or conditions. This discussion should be read in conjunction with our condensed consolidated financial statements herein and the accompanying notes thereto, and our Annual Report on Form 10-K for the year ended December 31, 2010, in particular, the information set forth therein under Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations".

Overview

We provide wireless and wireline telecommunications services in North America, Bermuda and the Caribbean. Through our operating subsidiaries, we offer the following principal services:

- **Wireless.** In the United States, we offer wireless voice and data services to retail customers under the "Alltel" name in rural markets located principally in the Southeast and Midwest. Additionally, we offer wholesale wireless voice and data roaming services to national, regional, local and selected international wireless carriers in rural markets located principally in the Southwest and Midwest United States. We also offer wireless voice and data services to retail customers in Bermuda under the "CellOne" name, in Guyana under the "Cellink" name, and in other smaller markets in the Caribbean and the United States.

Wireline. Our local telephone and data services include our operations in Guyana and the mainland United States. We are the exclusive provider of domestic wireline local and long distance telephone services in Guyana and international voice and data communications into and out of Guyana. We also offer facilities-based integrated voice and data communications services to enterprise and residential customers in New England, primarily in Vermont, and wholesale transport services in New York State.

In the second quarter of 2010, we completed the acquisition of a portion of the former Alltel network from Verizon Wireless through our U.S. retail wireless business, which now provides wireless voice and data services in rural markets of the United States under the “Alltel” brand name (the “Alltel Acquisition”). Since 2005, revenue from our U.S. operations has significantly grown as a percentage of consolidated revenue and, as a result of our Alltel Acquisition, a substantial majority of our consolidated revenue is now generated in the United States mainly through mobile wireless operations.

In the second quarter of 2011, we continued our expansion by completing the merger of our Bermuda operations with M3 Wireless, Ltd., a leading retail wireless provider in Bermuda and entering into a joint venture with the Navajo Tribal Utility Authority to provide retail wireless services on the Navajo Nation. We actively evaluate additional investment and acquisition opportunities in the United States and the Caribbean that meet our return-on-investment and other acquisition criteria.

The following chart summarizes the operating activities of our principal subsidiaries, the segments in which we report our revenue and the markets we served as of June 30, 2011:

Services	Segment	Markets	Tradenames
Wireless	U.S. Wireless	United States (rural markets)	Alltel, Choice
	Island Wireless	Aruba, Bermuda, Turks and Caicos, U.S. Virgin Islands	Mio, CellOne, Islandcom, Choice
	International Integrated Telephony	Guyana	Cellink
Wireline	International Integrated Telephony	Guyana	
	U.S. Wireline	United States (New England and New York State)	Sovernet, ION

We provide management, technical, financial, regulatory, customer support and marketing advisory services to our subsidiaries and typically receive a management fee equal to a percentage of their respective revenue. Management fees from consolidated subsidiaries are eliminated in consolidation.

As discussed above, we have historically been dependent on our wholesale U.S. wireless business and International Integrated Telephony operations for a majority of our revenue and profits. The addition of our retail U.S. wireless business following the Alltel Acquisition on April 26, 2010 has shifted our reliance substantially to our U.S. Wireless segment, which now includes both our wholesale and retail U.S. wireless businesses. For the three months ended June 30, 2011, approximately 79% of our consolidated revenue was generated by our U.S. Wireless segment, while only 12% was generated by our International Integrated Telephony segment.

As of June 30, 2011, our U.S. retail wireless services were offered to approximately 639,000 customers under the “Alltel” brand name. Our wireless licenses provide mobile data and voice coverage to a network footprint covering a population of approximately six million people as of June 30, 2011. Through the Alltel Acquisition, we acquired a regional, non-contiguous wireless network that we anticipate will require continued network expansion and improvements as well as roaming support to ensure ongoing nationwide coverage. Our Alltel service offerings provide rate plans, advanced devices and features that include local and nationwide voice and data services on either a postpaid or prepaid basis. We offer several rate plans designed for customers to choose the

[Table of Contents](#)

flexibility that they desire for their calling preferences, and believe that the ability to offer nationwide calling to our customers is a key factor in our ability to remain competitive in the telecommunications market.

Our U.S. retail wireless revenue is primarily driven by the number of subscribers to our services, their adoption of our enhanced service offerings and their related voice and data usage. The number of subscribers and their usage volumes and patterns also has a major impact on the profitability of our U.S. retail wireless operations. Our customer activity may be influenced by traditional retail selling periods, which may be seasonal in nature, and other factors that arise in connection with our rural customer base. In late July 2011, we completed the transition we began in April 2010 of our Alltel customers from the legacy Alltel information technology systems and platforms to our own (the “Alltel Transition”). During this transition period, we experienced a significant net attrition of our wireless subscriber base (from 807,000 subscribers as of June 30, 2010 to 639,000 subscribers as of June 30, 2011) due to a number of anticipated factors, including (1) our elimination of an unprofitable indirect post-paid sales channel, (2) our loss of a major indirect prepaid distribution channel, (3) the realignment of our customer base to address customers whose primary usage occurred outside our territory, (4) the elimination of certain sales and credit practices of the divestiture trust regarding one year contacts and inordinate handset subsidies and (5) our adjustment of certain legacy collection and credit practices. As a result of these actions and other initiatives, subscriber churn has improved significantly over the past two quarters and we currently expect the net attrition of our U.S. retail wireless subscriber base to end late in the third quarter. We also expect subscriber levels to grow modestly and for churn to continue to improve through the end of 2011 as we are able to utilize the features of our own systems and platforms to refine and enhance our service offerings.

The mix of our customers and their patterns of usage, particularly usage outside our network footprint, will have a significant impact on the level of profits for our U.S. retail wireless business. In general, we compete with national and regional wireless providers that offer both prepaid and postpaid services whose scale, resources and U.S. network footprint are generally significantly greater than ours. Our ability to remain competitive and to maintain reasonable profit margins will depend, in part, on our ability to provide competitive pricing for our customers, to provide the latest mobile voice and data services in all of the areas where they wish to access those services and to anticipate and respond to various competitive factors.

In addition, our wholesale revenue is an important part of our overall U.S. Wireless segment revenue because this revenue has a higher margin of profitability than our retail revenue. Wholesale revenue is primarily driven by the number of sites and base stations we operate, the amount of voice and data traffic from the subscribers of other carriers that each of these sites generates, and the rate we get paid from other carrier customers for serving that traffic. We provide wholesale roaming services in a number of areas in the U.S. including in areas in which we also have retail wireless operations such as the recently

acquired Alltel markets. Historically, the growth in same site voice and data volumes and the number of operated sites has outpaced the decline in rates. However, during 2010, a significant decrease in the rates, particularly data rates, almost offset overall voice and data traffic growth, and we expect that growth in 2011 will continue to be partially offset by further decreased rates. We compete with other wireless service providers that operate networks in their markets and offer wholesale roaming services as well.

The most significant competitive factor we face in our U.S. wholesale wireless business is the extent to which our carrier customers elect to build or acquire their own infrastructure in a market in which they operate or choose not to roam on our networks, reducing or eliminating their need for our services in those markets. For example, the 2009 acquisition by Verizon Wireless of Alltel Corporation and subsequent 2010 acquisition of certain divested Alltel assets by AT&T resulted in our wholesale customers acquiring their own infrastructure in certain markets where they were historically served by us. This has already resulted in some loss, and is expected to continue to result in a significant loss, of wireless wholesale revenue and related operating income in future periods, which, if not offset by growth in other wholesale revenue generated or other sources, could materially reduce our overall operating profits. While we are not able to forecast the extent of this revenue impact precisely, we expect that at the very least such loss may more than offset any other organic growth in U.S. wholesale wireless revenue during these periods.

Acquisition of Alltel Assets

On April 26, 2010, we completed our acquisition of a portion of the former Alltel network from Verizon Wireless pursuant to the Purchase Agreement, dated June 9, 2009, by and between the Company and Verizon Wireless. Pursuant to the Alltel Acquisition, Verizon Wireless contributed certain licenses, network assets, tower and other leases and other assets and certain related liabilities to a wholly-owned subsidiary limited liability company whose membership interests were acquired by our wholly-owned subsidiary. In connection with the acquisition, the Company and Verizon Wireless entered into roaming and transition services arrangements and we obtained the rights to use the Alltel brand and related service marks for up to twenty eight years in connection with the continuing operation of the acquired assets. The purchase price of the acquisition was \$200 million, plus approximately \$21.4 million in connection with a customary net working capital adjustment and other fees and expenses. In late July 2011, we completed the Alltel Transition and terminated the transition services arrangement.

[Table of Contents](#)

Merger with M3 Wireless, Ltd.

On May 2, 2011, the Company completed the merger of its Bermuda wireless operations, Bermuda Digital Communications, Ltd. ("BDC"), with that of M3 Wireless, Ltd. ("M3"), a wireless provider in Bermuda (the "CellOne Merger"). As part of the CellOne Merger, M3 merged with and into BDC, and the combined entity will continue to operate under BDC's CellOne brand under the leadership of BDC's existing management team. As a result of the CellOne Merger, the Company's 58% ownership interest in BDC was reduced to a controlling 42% interest in the combined entity. Since the Company owns the majority of seats on the combined entity's board of directors and therefore controls its management and policies, the Company has consolidated the results of the combined entity in its consolidated financial statements effective on the date of the CellOne Merger.

Stimulus Grants

In 2009 and 2010, we filed several applications for stimulus funds made available by the U.S. Government under provisions of the American Recovery and Reinvestment Act of 2009 intended to stimulate the deployment of broadband infrastructure and services to rural, unserved and underserved areas.

In December 2009, we were named to receive a \$39.7 million federal stimulus grant to fund our ION Upstate New York Rural Broadband Initiative, which involves building ten new segments of fiber-optic, middle-mile broadband infrastructure, serving more than 70 rural communities in upstate New York and parts of Pennsylvania and Vermont. The new project is being undertaken through our public-private partnership with the Development Authority of the North Country ("DANC"), a New York State public benefit corporation that owns and operates 750 miles of fiber optic network and provides wholesale telecommunications transport services to voice, video, data and wireless service providers. The \$39.7 million grant, awarded to us by the National Telecommunications and Information Administration of the U.S. Department of Commerce ("NTIA"), under its Broadband Technology Opportunities Program, will be paid over the course of the three-year project period as expenses are incurred. An additional \$9.9 million will be invested in the project by us and by DANC. The funding and build of this new project began in the third quarter of 2010. The results of our U.S. fiber optic transport business are included in our "U.S. Wireline" segment.

On March 25, 2010 the NTIA awarded the Navajo Tribal Utility Authority ("NTUA") a \$32.1 million federal stimulus grant. The grant, along with partial matching funds, will provide broadband infrastructure access to the Navajo Nation across Arizona, New Mexico and Utah. As part of the project, in April 2011, we formed a joint venture with NTUA and contributed network-related and other assets to provide last mile services through a 4G LTE network to be constructed as a part of this project. Our partnership with NTUA will receive a portion of the total grant to build-out the last mile infrastructure. This network will allow the joint venture to supply both fixed and mobile customers with high-speed broadband access. The funding of this project is not scheduled to begin until the second half of 2011, once the necessary environmental site work is completed. Accordingly, we did not recognize any of the granted funds during the three or six months ended June 30, 2011. The results of our wholesale U.S. wireless business are included in our "U.S. Wireless" segment.

On July 7, 2010, in partnership with the Vermont Telecommunications Authority (the "VTA"), we were awarded a \$33.4 million federal stimulus grant by the NTIA. The grant, along with partial matching funds to be contributed by us (through a Vermont subsidiary) and the VTA, will be invested in building a new fiber-optic middle mile network in Vermont to provide broadband and wireless services to community schools, colleges, libraries and state-owned buildings in the area. The funding of this project began during the second quarter of 2011. The results of our U.S. wireline business are included in our "U.S. Wireline" segment.

U.S. Wireless revenue. U.S. Wireless revenue includes voice and data services revenue from our prepaid and postpaid retail operations as well as our wholesale roaming operations. Retail revenue is derived from access by our retail customers to and usage of our networks and facilities, including airtime, roaming and long distance as well as enhanced services such as caller identification, call waiting, voicemail and other features. Retail revenue also includes credits from the Universal Service Fund. Wholesale revenue is generated from providing mobile voice or data services to the customers of other wireless carriers and also includes revenue from other, related, wholesale services such as the provision of network switching services and certain wholesale transport services.

Retail revenue

In late July 2011, we completed the Alltel Transition. As a result, we expect to be able to better drive subscriber additions, further control churn and optimize our service offerings beginning in the third quarter of 2011. These subscriber-related functions had been somewhat constrained during the transition period and, together with the realignment of our customer base, contributed to a continued decline in our U.S. retail wireless revenue during the transition period.

The retail portion of our U.S. Wireless revenue was \$95.4 million for the three months ended June 30, 2011, substantially all of which is attributable to revenue generated by the Alltel Acquisition. U.S. retail wireless revenue was \$81.5 million for the three months ended June 30, 2010, all of which followed the closing of our Alltel Acquisition in late April 2010. The increase of \$13.9 million is the result of the three months ended June 30, 2011 representing a full quarter of operations partially offset by a decrease in subscribers over the past year.

As of June 30, 2011, we had approximately 639,000 U.S. retail wireless subscribers (including 493,000 postpaid subscribers and 146,000 prepaid subscribers), a decrease of 35,000 from the approximate 674,000 subscribers we had as of March 31, 2011 and a decrease of 168,000 from the 807,000 subscribers we had as of June 30, 2010. Gross additions to the U.S. retail wireless subscriber base were approximately 39,000 for the three months ended June 30, 2011, as compared to approximately 47,000 for the three months ended March 31, 2011. We expect to experience moderately improved gross additions to our subscriber base in future periods as a result of the completion of the Alltel Transition of our customers to our own operating platform and billing system as well as new handset and service plan offerings.

Our overall U.S. retail wireless churn decreased from 4.29% for the three months ended March 31, 2011 to 3.73% for the three months ended June 30, 2011. This improvement was the result of a more proactive approach in managing delinquent accounts by tightening our collection policies and procedures, eliminating certain high-churn distribution channels and providing our customers

decrease moderately in future periods as we continue to improve our credit policies and provide quality handset and service offerings.

Wholesale Revenue

Verizon's acquisition of Alltel in 2009 has caused some loss of wireless wholesale revenue and also impacted our ability to grow wholesale wireless revenue as certain network assets acquired by Verizon overlap geographically with areas of our legacy U.S. roaming network where we previously provided wholesale roaming services to Verizon. Similarly, and of greater importance to us, AT&T's 2010 acquisition of certain Alltel assets and the completion of its previously announced UMTS network build in those areas overlapping our network in the southwestern United States has negatively impacted wireless wholesale revenue in 2011. We expect this loss in wireless wholesale revenue to continue to have a negative impact on our operating income in future periods if it is not offset or replaced by increased operating income from other sources.

The wholesale portion of our U.S. Wireless revenue increased to \$51.9 million for the three months ended June 30, 2011 from \$39.6 million for the three months ended June 30, 2010, an increase of \$12.3 million. The increase in wireless wholesale revenue was due to a \$13.6 million increase of roaming revenue generated by the networks we acquired in the Alltel Acquisition. The quarter ended June 30, 2011 represents a full quarter of operations including Alltel assets as compared to a partial period for the quarter ended June 30, 2010. The increase was partially offset by a \$1.3 million decrease in revenues from our legacy U.S. roaming network. Such decrease from our legacy U.S. roaming network was a result of the overlapping of the Company's networks with the networks of Verizon and AT&T as discussed above, as well as a decline in the rates we charge our carrier customers. These declines were partially offset by an increase in data roaming usage on our network. Our base stations increased from 1,515 as of June 30, 2010 to 1,598 as of June 30, 2011.

While we expect some increase in wireless wholesale revenue from our U.S. wireless business in geographical areas not impacted by Verizon's or AT&T's acquisition of Alltel networks, the pace of that increase in non-Alltel overlap markets is currently expected to be slower as compared to the growth in previous periods due to a reduction in the number of new sites and base stations added and recent reductions in roaming rates. Additional rate reductions, under previously contracted agreements, may also negatively affect our revenue growth in upcoming periods.

International Wireless revenue. International Wireless revenue includes retail and wholesale voice and data wireless revenue from international operations in Bermuda and the Caribbean.

International Wireless revenue increased by \$6.1 million to \$18.7 million for the three months ended June 30, 2011, from \$12.6 million for the three months ended June 30, 2010. This increase primarily resulted from the completion of the CellOne Merger on May 2, 2011, the acquisition of wireless operations in Aruba at the end of the second quarter 2010 and the growth in subscribers in both Guyana and the U.S. Virgin Islands. International Wireless subscribers increased by 10% from 314,000 as of June 30, 2010 to 345,000 as of June 30, 2011, which includes Island Wireless subscribers doubling in number from 24,000 as of June 30, 2010 to 48,000 as of June 30, 2011 and subscribers in Guyana increasing by 2% from 290,000 as of June 30, 2010 to 297,000 as of June 30, 2011.

While we have experienced subscriber growth in a number of our international markets, competition remains strong, and the high proportion of prepaid subscribers, particularly in Guyana, means that subscribers and revenue could shift relatively quickly in future periods.

Wireline revenue. Wireline revenue is generated by our wireline operations in Guyana, including international telephone calls into and out of that country, our integrated voice and data operations in New England and our wholesale transport operations in New York State and in the western United States. This revenue includes basic service fees, measured service revenue, and internet access fees, as well as installation charges for new lines, monthly line rental charges, long distance or toll charges, maintenance and equipment sales.

Wireline revenue decreased by \$2.3 million to \$20.9 million for the three months ended June 30, 2011 from \$23.2 million for the three months ended June 30, 2010. A \$1.4 million decrease in international long distance revenue in Guyana and a \$1.6 million decrease in local access revenue were partially offset by data revenue growth in Guyana and growing U.S. wholesale transport revenue. Although the number of access lines in Guyana increased by 1%, from approximately 149,000 lines as of June 30, 2010 to approximately 150,000 lines as of June 30, 2011, we experienced lowered average usage per line during the second quarter of 2011.

We believe the decrease in international long distance revenue was a result of continued and considerable illegal bypass activities in Guyana resulting in lost revenue opportunities, as well as an overall reduction in call volume attributable to the current difficult global economic environment. In the U.S., we saw moderately increased revenue from our upstate New York wholesale

[Table of Contents](#)

transport service business. We continue to add business customers in the U.S. for our voice and data services; however, the overall revenue increase is offset by a decline in the residential data business, including dial-up internet services.

In future periods, we anticipate that wireline revenue from our international long distance business in Guyana may continue to decrease, particularly if the Government of Guyana adopts and enacts current draft legislation to issue new international long distance licenses to other providers in Guyana. Over time, such pressure on our wireline revenue may be offset by increased revenue from data services to consumers and enterprises in Guyana, and wholesale transport services and large enterprise and agency sales in the United States. We are in the process of expanding our fiber network in New York and began receiving a portion of a \$39.7 million stimulus grant in the second half of 2010. During the quarter ended June 30, 2011, we also began receiving a portion of the \$33.4 stimulus grant in connection with the expansion of our fiber network in Vermont.

Equipment and other revenue. Equipment and other revenue represent revenue from wireless equipment sales, primarily handsets to retail customers, and other miscellaneous revenue items.

Equipment and Other revenue decreased by \$0.9 million to \$6.9 million for the three months ended June 30, 2011, from \$7.8 million for the three months ended June 30, 2010. Equipment revenue decreased as a result of the substantial completion of our transition of subscribers from one-year contracts to the more traditional two-year contracts.

Termination and access fee expenses. Termination and access fee expenses are charges that we pay for voice and data transport circuits (in particular, the circuits between our wireless sites and our switches), internet capacity and other access fees we pay to terminate our calls, as well as customer

bad debt expense.

Termination and access fees increased by \$10.2 million from \$44.6 million for the three months ended June 30, 2010 to \$54.8 million for the three months ended June 30, 2011. Such increase is the result of an increase in usage partially offset by a decrease in customer bad debt expense and also reflects a full quarter of results including the Alltel assets for the second quarter of 2011 as opposed to the partial quarter results in 2010 due to the acquisition of Alltel assets in late April 2010. Termination and access fees are expected to increase in future periods with expected growth in volume, but remain fairly proportionate to their related revenue as our networks expand.

Engineering and operations expenses. Engineering and operations expenses include the expenses associated with developing, operating, supporting and expanding our networks, including the salaries and benefits paid to employees directly involved in the development and operation of our networks.

Engineering and operations expenses increased by \$4.0 million from \$17.9 million for the three months ended June 30, 2010 to \$21.9 million for the three months ended June 30, 2011 as a result of the Alltel Acquisition which was completed on April 26, 2010. As such, 2011 reflects a full quarter of results including the Alltel assets as opposed to the partial quarter results in 2010. We expect that engineering and operations expenses will continue to increase as our networks expand and require additional support. This increase, however, will be at a slower pace than in previous quarters due to the completion of the Alltel Transition.

Sales, marketing and customer service expenses. Sales and marketing expenses include salaries and benefits we pay to sales personnel, customer service expenses, sales commissions and the costs associated with the development and implementation of our promotion and marketing campaigns.

Sales and marketing expenses increased by \$12.6 million from \$23.8 million for the three months ended June 30, 2010 to \$36.4 million for the three months ended June 30, 2011. Of this increase, \$10.7 million was attributable to the operations of the Alltel assets which incurred some overlap of expenses from the transition services being performed during the quarter. We expect that sales and marketing expenses will decrease as a percentage of revenue as a result of the completion of the Alltel Transition but will remain higher than normal for the short term as we incur retention costs in an attempt to offset customer churn.

Equipment expenses. Equipment expenses include the costs of our handset and customer resale equipment at our retail wireless businesses.

Equipment expenses increased by \$0.4 million from \$17.6 million for the three months ended June 30, 2010 to \$18.0 million for the three months ended June 30, 2011. We expect that these expenses will decrease as a percentage of revenue in the near-term due to the accelerated pace of customer contract renewals and extensions we experienced in 2010 offset, however, by an increase in handset upgrades due to an increase in smartphone penetration.

General and administrative expenses. General and administrative expenses include salaries, benefits and related costs for general corporate functions, including executive management, finance and administration, legal and regulatory, facilities, information

[Table of Contents](#)

technology and human resources. General and administrative expenses also include internal costs associated with our performance of due-diligence on our pending or completed acquisitions.

General and administrative expenses increased by \$7.3 million from \$23.5 million for the three months ended June 30, 2010 to \$30.8 million for the three months ended June 30, 2011 as a result of a full quarter of results including the Alltel assets in the second quarter of 2011 as compared to the partial second quarter of 2010 due to the acquisition of Alltel assets in late April 2010. We incurred some overlap of expenses from the transition services being performed during the quarter. As a percentage of revenues, we expect that general and administrative expenses will decrease as a result of our completion of the Alltel Transition.

Acquisition-related charges. Acquisition-related charges include the external costs, such as legal, accounting, and consulting fees directly associated with acquisition related activities, which are expensed as incurred. Acquisition-related charges do not include internal costs, such as employee salary and travel-related expenses, incurred in connection with acquisitions or any integration related costs.

For the three months ended June 30, 2011, acquisition-related charges were \$0.3 million, as compared to \$11.0 million incurred in connection with the Alltel Acquisition during the three months ended June 30, 2010. We expect that acquisition-related expenses will continue to be incurred from time to time as we continue to explore additional acquisition opportunities.

Depreciation and amortization expenses. Depreciation and amortization expenses represent the depreciation and amortization charges we record on our property and equipment and on certain intangible assets.

Depreciation and amortization expenses increased by \$6.9 million from \$18.5 million for the three months ended June 30, 2010 to \$25.4 million for the three months ended June 30, 2011. The increase is primarily due to the addition of the tangible and intangible assets acquired with the Alltel Acquisition and CellOne Merger as well as additional fixed assets from our network expansion in our U.S. Wireless and Island Wireless segments.

We expect depreciation expense on our tangible assets to continue to increase as a result of ongoing network expansion in our businesses. Such increase, however, will be partially offset by a future decrease in the amortization of our intangible assets, which are being amortized using an accelerated amortization method.

Interest expense. Interest expense represents interest incurred on our outstanding credit facilities including our interest rate swaps.

Interest expense increased from \$2.4 million for the three months ended June 30, 2010 to \$4.3 million for the three months ended June 30, 2011, due to increased borrowings, additional cash flow hedges of interest rate risk entered into during July and December 2010, and applicable margins on our credit facility. As of June 30, 2011, we had \$311.9 million in outstanding debt as compared to \$260.2 million as of June 30, 2010.

Interest income. Interest income represents interest earned on our cash and cash equivalents.

Interest income remained consistent at \$0.1 million as a result of relatively consistent average cash balances during the three months ended June 30, 2011 and 2010.

Equity in earnings of an unconsolidated affiliate. Equity in earnings of an unconsolidated affiliate in our U.S. Wireless segment was \$0.2 million for the three months ended June 30, 2011 as compared to \$0.3 million for the three months ended June 30, 2010.

Other income (expense). Other income (expense) represents miscellaneous non-operational income we earned or expenses we incurred. Other income was \$0.2 million for the three months ended June 30, 2010. We did not recognize any other income (expense) during the three months ended June 30, 2011.

Income taxes. Income tax expense includes federal and state income taxes at their respective statutory rates as well as foreign income taxes in excess of the statutory U.S. income tax rates. Since we operate in jurisdictions that have a wide range of statutory tax rates, our consolidated effective tax rate is impacted by the mix of income generated in those jurisdictions. Our effective tax rates for the three months ended June 30, 2010 and 2011 were 24% and 44%, respectively. For 2010, the effective tax rate was reduced by the bargain purchase gain which is shown net of tax on our statements of operations. Partially offsetting this reduction was a \$5.2 million expense related to an increase in valuation allowance against the Company's foreign tax credit carryforward.

Net (Income) Loss Attributable to Non-Controlling Interests. Net (income) loss attributable to non-controlling interests includes minority shareholders' share of net income or losses in our less than wholly-owned subsidiaries. Net (income) loss attributable to non-controlling interests reflected an allocation of \$0.2 million of income and \$0.5 million of losses for the three months ended June 30, 2010 and 2011, respectively.

[Table of Contents](#)

Net income attributable to Atlantic Tele-Network, Inc. Stockholders. Net income attributable to Atlantic Tele-Network, Inc. stockholders decreased to \$1.8 million for the three months ended June 30, 2011 from \$24.8 million for the three months ended June 30, 2010. Operating income decreased from \$7.8 million to \$6.3 million for the three months ended June 30, 2010 and 2011, respectively. We expect that operating income will increase in future periods due to the completion of the Altell Transition. Net income for the three months ended June 30, 2010 was also positively impacted by a one-time bargain purchase gain related to the Alltel Acquisition. On a per share basis, net income decreased from \$1.60 per diluted share to \$0.12 per diluted share for the three months ended June 30, 2010 and 2011, respectively.

U.S. Wireless revenue. U.S. Wireless revenue includes voice and data services revenue from our prepaid and postpaid retail operations as well as our wholesale roaming operations.

Retail revenue

The retail portion of our U.S. Wireless revenue was \$195.1 million for the six months ended June 30, 2011, substantially all of which is attributable to revenue generated by the Alltel Acquisition. U.S. retail wireless revenue was \$81.5 million for the six months ended June 30, 2010 all of which followed the closing of our Alltel Acquisition in late April 2010. The increase of \$113.6 million is the result of 2011 representing a full six months of operations partially offset by a decrease in subscribers.

[Table of Contents](#)

As of June 30, 2011, we had approximately 639,000 U.S. retail wireless subscribers (including 493,000 postpaid subscribers and 146,000 prepaid subscribers), a decrease of 35,000 from the approximate 674,000 subscribers we had as of March 31, 2011 and a decrease of 168,000 from the 807,000 subscribers we had as of June 30, 2010.

Wholesale Revenue

The wholesale portion of our U.S. Wireless revenue increased to \$96.6 million for the six months ended June 30, 2011 from \$62.5 million for the six months ended June 30, 2010, an increase of \$34.1 million. The increase in wireless wholesale revenue was due to a \$35.9 million increase of roaming revenue generated by the networks we acquired in the Alltel Acquisition in April 2010 offset by a \$2.0 million decrease in revenues from our legacy U.S. roaming network. Such decrease from our legacy U.S. roaming network was a result of the overlapping of the Company's networks with the networks of Verizon and AT&T as discussed above, as well as a decline in the rates we charge our carrier customers partially offset by an increase in data volumes.

International Wireless revenue. International Wireless revenue increased by \$10.2 million to \$33.7 million for the six months ended June 30, 2011, from \$23.5 million for the six months ended June 30, 2010. This increase primarily resulted from the Company's completion of the CellOne Merger, Ltd. in Bermuda on May 2, 2011, the acquisition of wireless operations in Aruba at the end of the second quarter 2010 and the growth in subscribers in both Guyana and the U.S. Virgin Islands. International Wireless subscribers increased by 10% from 314,000 as of June 30, 2010 to 345,000 as of June 30, 2011, which includes Island Wireless subscribers doubling in number from 24,000 as of June 30, 2010 to 48,000 as of June 30, 2011 and subscribers in Guyana increasing by 2% from 290,000 as of June 30, 2010 to 297,000 as of June 30, 2011.

Wireline revenue. Wireline revenue decreased by \$2.2 million to \$41.6 million for the six months ended June 30, 2011 from \$43.8 million for the six months ended June 30, 2010. A \$3.2 million decrease in international long distance revenue in Guyana was offset by data revenue growth in Guyana and growing U.S. wholesale transport revenue. Although the number of access lines in Guyana increased by 1%, approximately 149,000 lines as of June 30, 2010 to approximately 150,000 lines as of June 30, 2011, we experienced lowered average usage per line in the six months ended June 30, 2011.

Equipment and Other revenue. Equipment and Other revenue increased by \$6.7 million to \$15.0 million for the six months ended June 30, 2011, from \$8.3 million for the six months ended June 30, 2010. The increase is due to equipment sales from our Alltel Acquisition.

Termination and access fee expenses. Termination and access fees increased by \$50.8 million from \$55.9 million for the six months ended June 30, 2010 to \$106.7 million for the six months ended June 30, 2011. Such increase is the result of an increase in usage partially offset by a decrease in customer bad debt expense and also reflects a full six months of results including the Alltel assets as opposed to the partial period results in 2010 due to the acquisition of Alltel assets in late April 2010.

Engineering and operations expenses. Engineering and operations expenses increased by \$19.4 million from \$24.3 million for the six months ended June 30, 2010 to \$43.7 million for the six months ended June 30, 2011 as a result of the Alltel Acquisition which was completed on April 26, 2010. As such, 2011 reflects a full six month period of results including the Alltel assets as opposed to the partial period results in 2010.

Sales, marketing and customer service expenses. Sales and marketing expenses increased by \$41.3 million from \$27.2 million for the six months ended June 30, 2010 to \$68.5 million for the six months ended June 30, 2011. Of this increase, \$3.4 million was attributable to increased advertising and promotional campaigns while the remaining \$37.9 million was attributable to the ongoing operations of the Alltel assets (including some overlap of expenses from transition services performed during the six month period).

Equipment expenses. Equipment expenses increased by \$20.9 million from \$18.3 million for the six months ended June 30, 2010 to \$39.2 million for the six months ended June 30, 2011 as a result of the Alltel Acquisition.

General and administrative expenses. General and administrative expenses increased by \$22.2 million from \$34.2 million for the six months ended June 30, 2010 to \$56.4 million for the six months ended June 30, 2011 as a result of a full six months of results for the assets acquired in the Alltel acquisition which was completed on April 26, 2010 as well as the overlap of some expenses from the transition services.

Acquisition-related charges. For the six months ended June 30, 2011, acquisition-related charges were \$0.6 million, as compared to \$15.8 million incurred in connection with the Alltel Acquisition during the six months ended June 30, 2010.

Depreciation and amortization expenses. Depreciation and amortization expenses increased by \$21.6 million from \$28.6 million for the six months ended June 30, 2010 to \$50.2 million for the six months ended June 30, 2011. The increase is

[Table of Contents](#)

primarily due to the addition of the tangible and intangible assets acquired with the Alltel Acquisition and CellOne Merger as well as additional fixed assets from our network expansion in our U.S. Wireless and Island Wireless businesses.

Interest expense. Interest expense increased from \$3.7 million for the six months ended June 30, 2010 to \$8.1 million for the six months ended June 30, 2011, due to increased borrowings, additional cash flow hedges of interest rate risk entered into during July and December 2010 and applicable margins on our credit facility. As of June 30, 2011, we had \$311.9 million in outstanding debt as compared to \$260.2 million as of June 30, 2010.

Interest income. Interest income remained consistent at \$0.2 million for the six months ended June 30, 2011 and 2010 as our average cash balances remained relatively consistent.

Equity in earnings of an unconsolidated affiliate. Equity in earnings of an unconsolidated affiliate was \$0.8 million for the six months ended June 30, 2011 as compared to \$0.3 million for the six months ended June 30, 2010. We acquired this equity-method investment on April 26, 2010 in connection with the Alltel Acquisition.

Other income (expense). Other income was \$0.2 million and \$0.6 million for the six months ended June 30, 2010 and 2011, respectively.

Income taxes. Our effective tax rates for the six months ended June 30, 2010 and 2011 were 27% and 48%, respectively. For 2010, the effective tax rate was reduced by the bargain purchase gain which is shown net of tax on our statements of operations. Partially offsetting this reduction was a \$5.2 million expense related to an increase in valuation allowance against the Company's foreign tax credit carryforward.

Net Income Attributable to Non-Controlling Interests. Net (income) loss attributable to non-controlling interests includes minority shareholders' share of net income or losses in our less than wholly-owned subsidiaries. Net (income) loss attributable to non-controlling interests reflected an allocation of \$0.1 million of income and \$1.0 million of losses for the six months ended June 30, 2010 and 2011, respectively.

Net income attributable to Atlantic Tele-Network, Inc. Stockholders. Net income attributable to Atlantic Tele-Network, Inc. stockholders decreased to \$6.3 million for the six months ended June 30, 2011 from \$28.8 million for the six months ended June 30, 2010. The six months ended June 30, 2010 was positively impacted by a one-time bargain purchase gain related to the Alltel Acquisition of \$27.0 million partially offset by acquisition related-charges associated with the Alltel Acquisition of \$15.8 million. On a per share basis, net income decreased from \$1.86 per diluted share to \$0.41 per diluted share for the six months ended June 30, 2010 and 2011, respectively.

Regulatory and Tax Issues

We are involved in a number of regulatory and tax proceedings. A material and adverse outcome in one or more of these proceedings could have a material adverse impact on our financial condition and future operations. For a discussion of ongoing proceedings, see Note 11 to the Consolidated Financial Statements included in this Report.

Liquidity and Capital Resources

Historically, we have met our operational liquidity needs through a combination of cash on hand and internally generated funds and have funded capital expenditures and acquisitions with a combination of internally generated funds, cash on hand and borrowings under our credit facilities. We believe our current cash, cash equivalents and availability under our current credit facility will be sufficient to meet our cash needs for working capital and capital expenditures for at least the next twelve months.

Uses of Cash

Capital Expenditures. A significant use of our cash has been for capital expenditures to expand and upgrade our networks. In addition, capital expenditures within the last several quarters have also included significant costs associated with network migration and development of operational and business support systems related to the Alltel Acquisition.

For the six months ended June 30, 2010 and 2011, we spent approximately \$52.0 million and \$45.4 million, respectively, on capital expenditures. The following details our capital expenditures, by operating segment, for these periods:

	Capital Expenditures					
	U.S. Wireless	International Integrated Telephony	Island Wireless	U.S. Wireline	Reconciling Items	Consolidated
Three Months Ended June 30,						
2010	\$ 25,456	\$ 13,538	\$ 9,413	\$ 904	\$ 2,684	\$ 51,995
2011	30,762	8,198	3,486	1,220	1,762	45,428

[Table of Contents](#)

We are continuing to invest in expanding our networks in many of our markets and developing updated operating and business support systems. We expect to incur capital expenditures between \$105 million and \$120 million during 2011. Of this amount, we anticipate capital expenditures of between \$70 million to \$80 million in our U.S. Wireless business.

We expect to fund our current capital expenditures primarily from cash generated from our operations and borrowings under our credit facilities.

Acquisitions and Investments. Historically, we have funded our acquisitions with a combination of cash on hand and borrowings under our credit facilities. In April 2010, we funded the purchase price of the Alltel Acquisition with cash-on-hand and borrowings under our then existing credit facility. We drew down a \$150 million term loan under the credit facility and borrowed \$40 million under our previously undrawn \$75 million revolving credit facility. On September 30, 2010, we amended our 2010 Credit Facility and drew down a \$50 million term loan, repaid the outstanding balances on our 2010 Revolver Loan and also expanded the revolving credit facility to \$100 million.

We continue to explore opportunities to acquire or expand our existing communications properties or licenses in the United States, the Caribbean and elsewhere. Such acquisitions may require external financing. While there can be no assurance as to whether, when or on what terms we will be able to acquire any such businesses or licenses or make such investments, such acquisitions may be accomplished through the issuance of shares of our capital stock, payment of cash or incurrence of additional debt. From time to time, we may raise capital ahead of any definitive use of proceeds to allow us to move more quickly and opportunistically if an attractive investment materializes.

Dividends. We use cash-on-hand to make dividend payments to our common stockholders when declared by our Board of Directors. For the six months ended June 30, 2011, dividends to our stockholders were approximately \$6.8 million, which includes dividends declared in June 2011 and paid in July 2011. We have paid quarterly dividends for the last 51 fiscal quarters.

Stock Repurchase Plan. Our Board of Directors approved a \$5.0 million stock buyback plan in September 2004 pursuant to which we have spent approximately \$2.1 million as of June 30, 2011 repurchasing our common stock. We may repurchase shares at any time depending on market conditions, our available cash and our cash needs. We have not repurchased any shares under this plan since 2005.

Sources of Cash

Total Liquidity at June 30, 2011. As of June 30, 2011, we had approximately \$46.8 million in cash and cash equivalents, an increase of \$9.5 million from the December 31, 2010 balance of \$37.3 million. The increase in our cash and cash equivalents is attributable to the cash provided by our operating activities partially offset by investments in capital expenditures.

Cash Generated by Operations. Cash provided by operating activities was \$43.0 million for the six months ended June 30, 2011 compared to \$60.1 million for the six months ended June 30, 2010. The decrease of \$17.1 million was mainly due to a decrease in working capital.

Cash Generated by Financing Activities. Cash provided by financing activities was \$7.3 million for the six months ended June 30, 2011 as compared to cash provided by financing activities of \$177.2 million for the six months ended June 30, 2010. The \$169.9 million decrease was primarily the result of borrowings under our credit facility in 2010 which were used to finance the Alltel Acquisition.

On January 20, 2010, we amended and restated our then existing credit facility with CoBank (the "2010 Credit Facility"). The 2010 Credit Facility provided for \$223.9 million in term loans and a \$75.0 million revolver loan.

On September 30, 2010, we further amended the 2010 Credit Facility by adding a \$50.0 million term loan and expanding the revolver loan to \$100.0 million (which includes a \$10 million swingline sub-facility). This amended facility (the "Amended 2010 Credit Facility") also provides for additional term loans up to an aggregate \$50.0 million, subject to lender approval. As of June 30, 2011, \$258.2 million was outstanding under the term loans and \$47.1 million was outstanding under the revolver loan.

The term loans mature on September 30, 2014 and require certain quarterly repayment obligations. The revolver loan matures on September 10, 2014.

Amounts borrowed under the Amended 2010 Credit Facility bear interest at a rate equal to, at our option, either (i) the London Interbank Offered Rate (LIBOR) plus an applicable margin ranging between 3.50% to 4.75% or (ii) a base rate plus an applicable margin ranging from 2.50% to 3.75% (or, in the case of amounts borrowed under the swingline sub-facility, an applicable margin ranging from 2.00% to 3.25%). The applicable margin is determined based on the ratio of our indebtedness to its EBITDA (each as defined in the Amended 2010 Credit Facility agreement). Borrowings as of June 30, 2011, after considering the effect of the interest rate swap agreements as described in Note 7, bore a weighted-average interest rate of 5.86%.

[Table of Contents](#)

We may prepay the Amended 2010 Credit Facility at any time without premium or penalty, other than customary fees for the breakage of LIBOR loans. Under the terms of the Amended 2010 Credit Facility, we must also pay a commitment fee ranging from 0.50% to 0.75% of the average daily unused portion of the revolver loan over each calendar quarter.

The Amended 2010 Credit Facility contains customary representations, warranties and covenants, including covenants by us limiting additional indebtedness, liens, guaranties, mergers and consolidations, substantial asset sales, investments and loans, sale and leasebacks, transactions with affiliates and fundamental changes. In addition, the Amended 2010 Credit Facility contains financial covenants by us that (i) impose a maximum ratio of indebtedness to EBITDA, (ii) require a minimum ratio of EBITDA to cash interest expense, (iii) require a minimum ratio of equity to consolidated assets and (iv) require a minimum ratio of EBITDA to fixed charges. On June 30, 2011 we amended some of these financial covenants to allow an increased ratio of indebtedness to EBITDA and amended the definition of fixed charges. As of June 30, 2011, we were in compliance with all of the financial covenants of the Amended 2010 Credit Facility, as amended.

In connection with the CellOne Merger with M3 Wireless, Ltd., we assumed a \$7.0 million term loan owed to Keytech Ltd., the former parent company of M3 and current 42% minority shareholder in our Bermuda operations. The term loan requires quarterly repayments of principal and interest, matures on March 15, 2015 and bears interest at a rate of 7% per annum.

As of June 30, 2011 and December 31, 2010, the total notional amount of cash flow hedges under our interest rate swap agreements was \$143 million.

Factors Affecting Sources of Liquidity

Internally Generated Funds. The key factors affecting our internally generated funds are demand for our services, competition, regulatory developments, economic conditions in the markets where we operate our businesses and industry trends within the telecommunications industry. For a discussion of tax and regulatory risks in Guyana that could have a material adverse impact on our liquidity, see "Risk Factors—Risks Relating to Our Wireless and Wireline Services in Guyana", and "Business—Guyana Regulation" in our Annual Report on Form 10-K for the year ended December 31, 2010.

Restrictions Under Credit Facility. The Amended 2010 Credit Facility contains customary representations, warranties and covenants, including covenants by us limiting additional indebtedness, liens, guaranties, mergers and consolidations, substantial asset sales, investments and loans, sale and leasebacks, transactions with affiliates and fundamental changes. In addition, the Amended 2010 Credit Facility contains financial covenants by us that (i) impose a maximum ratio of indebtedness to EBITDA (ii) require a minimum ratio of EBITDA to cash interest expense, (iii) require a minimum ratio of equity to consolidated assets and (iv) require a minimum ratio of EBITDA to fixed charges (each as defined in the Amended 2010 Credit Facility). On June 30, 2011 we amended some of these financial covenants to allow an increased ratio of indebtedness to EBITDA and amended the definition of fixed

charges. On June 30, 2011 the Company amended some of these financial covenants to allow an increased ratio of indebtedness to EBITDA and amended the definition of fixed charges. As of June 30, 2011, we were in compliance with all of the financial covenants of the Amended 2010 Credit Facility, as amended.

Capital Markets. Our ability to raise funds in the capital markets depends on, among other things, general economic conditions, the conditions of the telecommunications industry, our financial performance, the state of the capital markets and our compliance with Securities and Exchange Commission (“SEC”) requirements for the offering of securities. On May 13, 2010, the SEC declared effective our “universal” shelf registration statement. This filing registered potential future offerings of our securities.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued updated guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. This update requires new disclosures on significant transfers of assets and liabilities in and out of Level 1 and Level 2 of the fair value hierarchy (including the reasons for these transfers) and also requires a reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements on a gross basis. In addition to these new disclosure requirements, this update clarifies certain existing disclosure requirements. For example, this update clarifies that reporting entities are required to provide fair value measurement disclosures for each class of assets and liabilities rather than each major category of assets and liabilities. This update also clarifies the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. This update was effective for companies with interim and annual reporting periods beginning after December 15, 2009, except for the requirement to provide the Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which became effective for interim and annual reporting periods beginning after December 15, 2010. The Company has adopted the updated guidance in the first quarter of 2010 and the adoption did not have an impact on our financial position, results of operations, or cash flows.

[Table of Contents](#)

In June 2009, the FASB issued new authoritative guidance that amends certain guidance for determining whether an entity is a variable interest entity (VIE). The guidance requires an enterprise to perform an analysis to determine whether the Company’s variable interests give it a controlling financial interest in a VIE. A company would be required to assess whether it has an implicit financial responsibility to ensure that a VIE operates as designed when determining whether it has the power to direct the activities of the VIE that most significantly impact the entity’s economic performance. In addition, this guidance amends earlier guidance requiring ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE. The adoption of the provisions of this guidance, which was effective January 1, 2010, did not have a material impact on the consolidated financial statements.

Other new pronouncements issued but not effective until after June 30, 2011, are not expected to have a material impact on our financial position, results of operations or liquidity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange Sensitivity. The functional currency we use in Guyana is the U.S. dollar because a significant portion of our Guyana revenues and expenditures are transacted in U.S. dollars. The results of future operations nevertheless may be affected by changes in the value of the Guyana dollar, however the Guyanese exchange rate has remained at approximately \$205 Guyana dollars to \$1 U.S. dollar since 2004 so we have not recorded any foreign exchange gains or losses since that date. All of our other foreign subsidiaries operate in jurisdictions where the U.S. dollar is the recognized currency.

Interest Rate Sensitivity. Our exposure to changes in interest rates is limited and relates primarily to our variable interest rate long-term debt. As of June 30, 2011, \$143.0 million of our long term debt had a fixed rate by way of interest-rate swaps that effectively hedge our interest rate risk. The remaining \$168.9 million of long term debt as of June 30, 2011 is subject to interest rate risk. As a result of our hedging policy we believe our exposure to fluctuations in interest rates is not material.

ITEM 4. CONTROLS AND PROCEDURES

Management’s Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2011. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 30, 2011, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. There was no change in the internal control over financial reporting that occurred during the three months ended June 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

See Note 11 to the Condensed Consolidated Financial Statements included in this Report.

Item 1A. Risk Factors

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our 2010 Annual Report on Form 10-K as filed with the SEC on March 16, 2011. The risks described in our 2010 Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In September 2004, the Board of Directors authorized the Company to repurchase up to \$5.0 million of common stock. The repurchase authorizations do not have a fixed termination date and the timing of the buyback amounts and exact number of shares purchased will depend on market conditions.

The following table reflects the repurchases by the Company of its common stock during the quarter ended June 30, 2011:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares that May be Purchased Under the Plans or Programs
April 1, 2011 — April 30, 2011	—	\$ —	—	\$ 2,919,965
May 1, 2011 — May 31, 2011	—	\$ —	—	\$ 2,919,965
June 1, 2011 — June 30, 2011	—	\$ —	—	\$ 2,919,965

Item 6. Exhibits

**CERTIFICATIONS PURSUANT TO
RULE 13a-14(a) OR RULE 15d-14(a),
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Michael T. Prior, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Atlantic Tele-Network, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weakness in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
